- Model Number: BT02

### Product Specification

- Color: Steel
- Length: Customized
- Usage: Scaffolding
- Packaging: Container
- Thickness: Customized
- Weight: Customized
- Edge: Smooth
- Material: Steel
- Highlight: **Customized Sturdy Metal Plank,  
Sturdy Scaffolding Metal Plank,  
Adjustable Scaffolding Plank**

## Product Description

### Sturdy Metal Plank For Scaffolding Customized Length And Quality

#### Product Description:

Scaffolding Plank, a must-have supporting board for scaffolding system, is made of steel for superior strength and durability. It is designed with standard size and thickness to meet different construction requirements. The color is steel, and the weight and thickness can be customized to meet the user's needs. The steel material ensures the excellent bearing capacity of the plank, making it an ideal choice for scaffolding system. It is easy to install and provides strong, safe and secure support for your scaffolding system. Metal plank for scaffolding is the perfect solution for your scaffolding needs.

#### Features:

**Product Name:** Scaffolding Plank

**Material:** Steel

**Weight:** Customized

**Structure:** Solid

**Width:** Customized

**Color:** Steel

**Scaffold Supporting Plank:** Yes

**Steel Plank:** Yes

#### Applications:

Bythai BT02 Scaffolding Plank

Bythai BT02 scaffolding plank is the perfect solution for supporting your scaffolding structure. The plank is made of high quality steel that is sturdy and reliable, with a smooth edge and specialized design for efficient use. The width of the plank is customizable, and it is available in pre-galvanized or hot dip galvanized surfaces. It is the perfect metal plank for supporting your scaffolding.

#### Customization:

Customized Scaffold Supporting Plank from Bythai (BT02)

Place of Origin: China

Surface: Pre-galvanized/hot Dip Galvanized

Thickness: Customized
