For any additional questions or concerns, please contact us at [insert contact information]. We are always happy to help.

Packing and Shipping:

Packaging and Shipping for Scaffolding Plank

Scaffolding planks are generally packaged in boxes of 10 or 25 units. Each plank is individually wrapped in plastic and then placed in the box. The boxes are then secured with tape and labeled with the appropriate shipping information.
For larger orders, pallets are used to securely package the planks. The planks are stacked on the pallet and then wrapped in plastic and secured with tape. The pallet is then labeled with the appropriate shipping information.
Scaffolding planks can be shipped by ground, air, or sea transport depending on the customer's needs. All shipments must be properly insured and tracked to ensure a safe and timely delivery.
