

High Load Capacity Frame System Structuring with Powder Coating

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BT04

Product Specification

- Cost-effectiveness: Yes
- Safety: High
- Material: Steel
- Weight: Lightweight
- Reusability: Yes
- Color: Steel, Painted Color
- Surface Treatment: Powder Coating
- Load Capacity: High
- Highlight: **Lightweight Frame System Structuring,
Powder Coating Frame System Structuring**

Product Description

Product Description:

Frame System Scaffolding is a ladder frame scaffolding system made of steel for superior stability and load capacity that is lightweight and powder coated for a long-lasting finish. The steel construction ensures high stability and load capacity, while the lightweight design makes it easier to move and assemble. The powder coating also ensures long-term protection against corrosion, making it a great option for both indoor and outdoor use. Our scaffold mobile frame can also be customized to meet your needs by adding different components, including handrails and walkways. It is an ideal choice for any construction project, providing a safe and reliable scaffolding platform for workers to access difficult and high areas. With its strength, safety, and durability, our Frame System Scaffolding is the perfect choice for any scaffolding application.

Features:

Frame System Scaffolding: Customized steel frame scaffolding system, providing high stability and lightweight.

Size: Customized, providing a walk through scaffold system.

Stability: High.

Color: Steel, painted color.

Surface Treatment: Powder coating.

Weight: Lightweight.

Technical Parameters:

Parameter	Description
Surface Treatment	Powder Coating
Durability	High
Stability	High
Safety	High
Load Capacity	High
Flexibility	High
Size	Customized
Material	Steel
Weight	Lightweight
Reusability	Yes

Applications:

Bythai BT04 Frame System Scaffolding is the perfect structural solution for any construction project. It is made of high quality steel with a powder coating for added durability and load capacity. It is also reusable, making it a cost-effective and efficient choice for any construction project. The frame system scaffolding is designed to provide superior structural support and safety to workers and is suitable for all kinds of construction projects.

Bythai BT04 Frame System Scaffolding offers a wide range of benefits for construction projects. Its frame system structuring and steel scaffolding system offers superior strength and stability for workers to work safely. The powder coating also adds to its durability, ensuring that it can withstand the elements and last for years. It is also reusable, making it a cost-effective and efficient choice for any construction project.

Bythai BT04 Frame System Scaffolding is suitable for all types of construction projects. Whether you are building a bridge, a skyscraper, or a residential home, our frame scaffolding system is designed to provide superior structural support and safety to workers. We have years of experience in construction and engineering and guarantee our products to be of the highest quality and standards. Invest in Bythai BT04 Frame System Scaffolding today for your next construction project.

Customization:

Bythai BT04 Frame System Scaffolding is a reliable and cost-effective scaffolding system for construction. It is made with high-quality steel to ensure its durability, stability, and safety. It is mobile and easy to assemble. It is perfect for any construction project!

Support and Services:

Frame System Scaffolding provides technical support and services to our customers. Our team of experts is available 24/7 to help answer any questions you may have about our products. We offer a variety of support channels, including phone, email, and online chat. Our knowledgeable staff can help you troubleshoot any issues you may have with our products. We are also available to provide technical

assistance and training to help you get the most out of your product. Additionally, we offer a variety of resources, such as tutorials, user guides, and FAQs to help you quickly and easily get the information you need.
