High Strength Silver Steel Scaffolding Coupler For Building Construction

Our Product Introduction

Basic Information

- Place of Origin: china tianjin
- Brand Name: scaffolding coupler
- Certification: SGS
- Model Number: BM201
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 15-25
- Payment Terms: TT/TC

Product Specification

- Feature: High Strength
- Application: Construction
- MOQ: 1000
- Color: Silver
- Package: Container
- Surface Treatment: Galvanized
- Name: Scaffolding Coupler
- Standard: EN74-1
- Highlight: **Silver Steel Scaffolding Coupler**, **Building Construction Scaffolding Coupler**

Product Description

Product Description:

Scaffolding Coupler

Scaffolding Coupler is an essential scaffold and structure connector used in the construction industry. It is designed to securely connect scaffold tubes and form a stable structure. Our couplers are made according to the JIS standard, ensuring their quality and reliability. With a surface treatment of galvanized, our couplers have a silver color which not only adds to their aesthetic appeal but also provides excellent protection against rust and corrosion. This makes them suitable for both indoor and outdoor use, even in harsh weather conditions.

The minimum order quantity (MOQ) for our Scaffolding Coupler is 1000 pieces. This ensures that our customers have enough couplers to complete their construction projects without any delay.

One of the key features of our Scaffolding Coupler is its high strength. It is made of premium quality materials that can withstand heavy loads and provide a safe working environment. This makes it suitable for use in various types of construction projects such as building construction, bridge construction, and more.

Our Scaffolding Coupler is a universal scaffold clamping tool, which means it can connect different types of scaffold tubes including steel, aluminum, and composite tubes. This makes it a versatile product that can be used in various construction applications.

Whether you are a contractor, builder, or scaffolding supplier, our Scaffolding Coupler is a must-have product for your construction needs. It is a reliable and cost-effective solution for creating a sturdy and safe scaffold structure. So, why wait? Order now and experience the strength and durability of our Scaffolding Coupler.

Technical Parameters:

Technical Parameters	Description
MOQ	1000
Name	Scaffolding Coupler
Material	Steel
Feature	High Strength
Application	Construction
Color	Silver
Standard	EN74-1
Package	Container
Surface Treatment	Galvanized
Key Features	- Used for manual scaffold connection - Made of high strength steel for durability - Suitable for construction purposes - Silver color with galvanized surface treatment - Complies with EN74-1 standard - Packaged in containers for easy transportation

Applications:

Scaffolding Coupler - Your Reliable Choice for Construction

The Scaffolding Coupler, also known as the BM201, is a high-quality Japanese scaffold accessory that is manufactured in China Tianjin. It has been certified by SGS and is a popular choice for construction companies around the world.

Application

The Scaffolding Coupler is a vital component in steel structure scaffold systems. It is used to connect two scaffold tubes together, providing a strong and stable support for workers and materials. This makes it an essential tool for any construction project, whether it is for building a high-rise skyscraper or a simple house.

Features

JIS Standard Couplings: The Scaffolding Coupler follows the JIS (Japanese Industrial Standards) standard, ensuring its quality and reliability.

Efficient and Cost-Effective: With the Scaffolding Coupler, you can easily and quickly assemble and disassemble scaffold systems, saving time and labor costs.

Easy to Install: The coupler is designed to be user-friendly, making it easy for workers to install and remove without any additional tools or equipment.

Durable and Long-Lasting: Made of high-grade steel, the Scaffolding Coupler is extremely durable and can withstand heavy loads and harsh weather conditions, ensuring its longevity and reliability.

Color: The coupler comes in a classic silver color, adding a touch of professionalism to your construction site.

Material: The Scaffolding Coupler is made of high-quality steel, providing a strong and stable connection between scaffold tubes.

Packaging and Delivery

The Scaffolding Coupler is packaged in bundles and can be delivered in containers. This ensures safe transportation and storage of the product.

Price and Payment Terms

The price of the Scaffolding Coupler ranges from 4.5 to 8.5, depending on the quantity ordered. We accept payment via TT (Telegraphic Transfer) or TC (Telegraphic Credit).

Order Now

Don't hesitate to order the Scaffolding Coupler for your next construction project. With its high-quality materials and efficient design, it will help you save time, money, and effort. Contact us now to place your order and experience the best in scaffold accessories!

Packing and Shipping:

Packaging and Shipping of Scaffolding Coupler
Packaging: The scaffolding coupler is packaged in a sturdy cardboard box to ensure safe transportation. The box is designed to withstand the rigors of shipping and handling and is able to protect the product from any damage during transit. Each box contains a set of scaffolding couplers, which are individually wrapped in plastic to prevent any scratches or dents. The product is also secured with foam inserts to keep it in place and prevent any movement during shipping. The packaging is designed to be compact and lightweight,

making it easy to handle and transport. This also helps to reduce shipping costs for our customers.
Shipping: We offer worldwide shipping for our scaffolding couplers. Our products are shipped using reliable and efficient shipping methods to ensure timely delivery and minimize any delays. Our preferred shipping partners are renowned companies with a proven track record of delivering products safely and on time. We also provide tracking information for our customers to easily track their orders and know the estimated delivery time. We take great care in packaging our products to ensure they arrive at their destination in perfect condition. In case of any damage during shipping, we have a hassle-free return and replacement policy to ensure customer satisfaction.
Conclusion: At Scaffolding Co., we prioritize the safety and satisfaction of our customers. That is why we ensure that our scaffolding couplers are packaged and shipped with utmost care and attention. With our reliable packaging and shipping methods, you can trust us to deliver your orders in pristine condition and on time.
