Scaffolding Ladder Step Ladder Steel Material Safety Step Ladder

Product Description:

Scaffolding Ladders: Your Ultimate Partner for Safe and Efficient Climbing

When it comes to working at heights, having a reliable and sturdy ladder is crucial. That's why we are proud to introduce Scaffolding Ladders - the perfect solution for all your scaffolding needs.

Material: Aluminum/HDG

Scaffolding Ladders are made of high-quality aluminum or HDG (hot-dip galvanized) material, ensuring durability and longevity. These materials are known for their strength and resistance to corrosion, making our ladders suitable for both indoor and outdoor use.

Color: Silver

Our Scaffolding Ladders come in a sleek silver color, adding a professional touch to any work site. The color also helps with visibility, ensuring safety during use.

Size: 3m

With a height of 3m, our Scaffolding Ladders provide the perfect balance between reach and portability. You can easily move and position the ladder as needed without compromising on its stability.

Warranty: 2 Years

We stand behind the quality of our products, which is why we offer a 2-year warranty on our Scaffolding Ladders. This gives you peace of mind and shows our commitment to providing top-notch products.

Load Capacity: 150kg

Our Scaffolding Ladders have a load capacity of 150kg, making them suitable for a wide range of tasks and users. You can trust that our ladders can handle heavy loads without compromising on safety.

Lightweight and Durable

One of the key features of our Scaffolding Ladders is their lightweight design. This makes them easy to carry and maneuver, enhancing their versatility and practicality. Despite their lightness, our ladders are built to last and can withstand regular use and harsh work environments.

Versatile and Adjustable

Our Scaffolding Ladders are designed to be versatile and adaptable to different work situations. You can easily adjust the height and angle of the ladder to suit your needs, making it suitable for a variety of tasks, from painting and cleaning to construction and maintenance.

Safety Features for Peace of Mind

Your safety is our top priority, which is why we have incorporated various safety features in our Scaffolding Ladders. These include anti-slip treads, locking mechanisms, and stabilizing bars to ensure stability and prevent accidents. Our ladders also meet all safety standards and regulations.

Don't compromise on safety and efficiency when working at heights. Choose Scaffolding Ladders - your ultimate partner for safe and efficient climbing. Get yours today and experience the difference!

Technical Parameters:

Product Name	Scaffolding Ladders
Model Number	SL-001
Warranty	2 Years
Step Width	50cm
Step Height	30cm
Load Capacity	150kg
Surface Treatment	HDG (Hot Dip Galvanized)
Size	3m
Color	Silver
Material	Aluminum/HDG (Hot Dip Galvanized)
Key Features	Suitable for scaffolding access and mounting Load-bearing ladder design for added safety Durable and long-lasting Easy to use and maneuver

Applications:

Scaffolding Ladders - bythai

Scaffolding climbing ladders are an essential tool for any construction site, maintenance work, installation, painting, or renovation project. These ladders provide a safe and stable way to access hard-to-reach areas and work at various heights. That's why bythai has developed the BM224 model, a high-quality and reliable scaffolding ladder to meet your needs.

The BM224 model from bythai is a load-bearing ladder with a load capacity of 150kg, making it suitable for a wide range of tasks. It is made of lightweight yet durable materials, such as aluminum or HDG (hot-dip galvanized) steel, which ensure its stability and longevity. It is easy to assemble and can be adjusted to different heights, making it a versatile tool for any job.

One of the key features of the BM224 is its portability. This ladder can be easily moved from one location to another, making it ideal for use on construction sites or for different projects that require frequent relocation. It is also designed with safety in mind, with non-slip steps and a sturdy base to prevent accidents and ensure the user's stability while working at heights.

Whether you are working on a construction site, performing maintenance tasks, installing equipment, painting walls, or renovating a building, the BM224 scaffolding ladder from bythai is the perfect choice for you. It is suitable for both indoor and outdoor use, and its compact size makes it easy to store when not in use.

The surface treatment of HDG - Hot Dip Galvanizing provides extra protection against corrosion and ensures a longer lifespan for the ladders.

We stand behind the quality of our products and offer a 2-year warranty for our Scaffolding Ladders.

Choose from a range of silver color options to match your construction site needs.

Packing and Shipping:

Packaging and Shipping for Scaffolding Ladders

Our scaffolding ladders are carefully packaged to ensure safe delivery to our customers. Each ladder is wrapped in protective material and placed in a sturdy cardboard box. The box is then sealed with tape and labeled with the product name and shipping information. For larger orders, the ladders are stacked and secured on a pallet. The pallet is then wrapped in stretch film to prevent any damage during transportation.

We offer both domestic and international shipping options for our scaffolding ladders. Domestic orders are shipped via ground transportation, while international orders are shipped via air or sea freight, depending on the customer's preference and location.

Our team carefully monitors the shipping process to ensure timely delivery and proper handling of the ladders. We also provide tracking information to our customers so they can track their order's progress.
