- Packaging: Container
- Usage: Scaffolding
- Highlight: **Customized Scaffold Staging Boards,
Galvanized Scaffold Staging Boards,
Construction Scaffolding Steel Plank**

Product Description:

Scaffolding Plank - Product Overview

Scaffolding plank, also known as scaffolding walkboard or scaffolding steel walking plank, is an essential component in the construction industry. It provides a safe and stable platform for workers to perform their tasks at elevated heights.

Our scaffolding planks are made from high-quality galvanized steel, ensuring durability and strength. They are designed to withstand heavy loads and provide a sturdy base for workers to stand on. The galvanized steel material also makes the planks resistant to rust and corrosion, increasing their lifespan.

Our scaffolding planks are available in various sizes and can be customized to fit your specific needs. They come in lengths of 1m, 2m, 2.5m, and 3m, with a width of 0.22m. The thickness of the planks ranges from 1.2mm to 1.5mm, depending on your requirements.

The surface of our scaffolding planks can be pre-galvanized, hot-dip galvanized, or spray plastic. Pre-galvanized planks have a thin layer of zinc coating, while hot-dip galvanized planks have a thicker layer, providing better protection against rust and corrosion. Spray plastic planks have a layer of plastic coating on the surface, offering additional durability and a non-slip surface.

Our scaffolding planks are packaged in containers for easy transportation and storage. They are manufactured in China, ensuring high-quality production and competitive pricing.

These scaffolding steel walking planks hook onto the scaffolding frames, providing a secure and stable platform for workers. They are easy to install and can be used in both indoor and outdoor construction projects.

In summary, our scaffolding planks are durable, strong, and customizable, making them the perfect choice for all your scaffolding needs.

With various surface options and convenient packaging, our scaffolding planks are the ideal solution for all your construction projects.

Order now and experience the difference in safety and efficiency with our high-quality scaffolding walkboards.

Applications:

Product: Scaffolding Plank

Brand Name: Bythai

Model Number: BM205

Place of Origin: China

Minimum Order Quantity: 1000

Price Range: \$4.5-8.5

Length: Customized

Bythai's Scaffolding Plank is a durable and reliable product that is essential for any scaffolding project. Made from high-quality steel and available in various surface options, our steel planks are designed to provide a safe and stable platform for workers to stand on while working at heights.

Our steel plank with hooks is designed with added safety features, providing a more secure and stable connection to the scaffolding frame. This makes it the perfect choice for construction sites, renovation projects, and any other application that requires a sturdy and reliable platform.

Our steel scaffolding plank is manufactured in China, ensuring high-quality standards and competitive pricing. With a minimum order quantity of 1000, we are able to cater to both small and large-scale projects. Our pricing ranges from \$4.5-8.5, making it an affordable choice for all budgets.

To ensure convenience and ease of transportation, our scaffolding planks are packaged in bundles. This makes it easy to load and unload from containers and trucks, saving time and effort.

With a delivery time of 10-15 days, we prioritize prompt delivery to meet our customers' project timelines. We offer flexible payment terms, including container and shipping options, to make the ordering process hassle-free.

Our steel scaffold plank is suitable for a wide range of applications, including construction, maintenance, painting, and more. It provides a safe and stable platform for workers to carry out their tasks efficiently and effectively.

Whether you need scaffolding for a small renovation project or a large construction site, Bythai's Scaffolding Plank is the perfect choice.

Contact us today to place your order and experience the quality and reliability of our products.

Customize Your Scaffolding Planks with Bythai

Are you in need of high-quality scaffolding planks for your construction projects? Look no further than Bythai's BM205 model. With our customized services, you can get the perfect steel plank 230 for your specific needs.

Strong and Durable Steel Plank Ringlock Scaffolding

Our BM205 model is made from galvanized steel, making it strong, durable, and resistant to rust and corrosion. It is designed to be used with ringlock scaffolding systems, providing a stable and secure platform for workers to perform their tasks.

Choose Your Surface Finish

At Bythai, we understand that every construction project is unique, and the same goes for the surface finish of scaffolding planks. That's why we offer three options for our BM205 model: pre-galvanized, hot dip galvanized, and spray plastic. You can choose the one that best suits your needs and budget.

Customized Length to Meet Your Requirements

We know that every construction site has different height and space requirements. That's why we offer customized lengths for our BM205 scaffolding planks. Just let us know your desired length, and we will provide you with the perfect size to fit your project.

Order in Bulk for the Best Price

With a minimum order quantity of 1000, Bythai offers competitive prices for our BM205 scaffolding planks. The price range is between 4.5-8.5, depending on the surface finish and quantity ordered. Our packaging details ensure that your planks arrive safely and securely in bundles.

Fast and Efficient Delivery

We understand the importance of timely delivery in the construction industry. That's why we guarantee a delivery time of 10-15 days for your customized scaffolding planks. We accept payment terms of container and shipping to make the ordering process convenient for you.

Order Your Bythai BM205 Scaffolding Planks Today

Don't settle for standard scaffolding planks when you can get customized ones from Bythai. Place your order today, and we will ship your planks from our manufacturing site in China. Trust Bythai for all your scaffolding needs. Contact us now to get a quote.

Packing and Shipping:

Scaffolding Plank Packaging and Shipping

Packaging:

Our Scaffolding Planks are carefully packaged to ensure safe delivery to our customers. Each plank is individually wrapped in plastic and

then placed in a sturdy cardboard box. The box is then sealed and labeled with the product name and quantity.

Shipping:

We offer both domestic and international shipping for our Scaffolding Planks. For domestic orders, we use reliable shipping companies to ensure timely delivery. International orders are shipped via air or sea freight, depending on the customer's preference and location.

Our shipping team carefully packages and labels each order to ensure that all products arrive in perfect condition. Customers will receive a tracking number for their order, allowing them to monitor the delivery status.

In the rare event that a product arrives damaged, we have a dedicated customer service team ready to assist. We will work quickly to resolve any issues and ensure that our customers receive their products in the best possible condition.

At Scaffolding Plank, we take great pride in delivering our products to our customers in a safe and timely manner. We are committed to providing the best packaging and shipping services to ensure customer satisfaction.
