

Factory Supply High Quality Construction Material 6061 Aluminum Catwalk

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: China
- Brand Name: bythai
- Certification: SGS
- Model Number: BS204
- Minimum Order Quantity: 100
- Price: 4.5-8.5
- Packaging Details: container
- Delivery Time: 10-15
- Payment Terms: TT/TC

Product Specification

- Type: Planks
- Size: Various Sizes Available
- Application: Construction, Maintenance, Repair
- Standard: EN39/BS1139
- Usage: Construction, Maintenance, Repair
- Oem: Available
- Packing: Container
- Material: Aluminium
- Anti-Slip: Yes
- Width: 0.24m
- Surface Treatment: Anodized
- Corrosion Resistance: High
- Surface: Aluminium

Product Description

Factory Direct: High-Quality 6061 Aluminum Catwalk for Construction Projects

Elevate your construction efficiency and safety with our factory-direct, high-quality 6061 aluminum catwalk!

This robust and lightweight walkway system offers unparalleled strength, corrosion resistance, and ease of assembly, making it the perfect choice for construction sites, industrial facilities, and maintenance applications.

Features:

Factory Direct Pricing: Maximize your budget with significant savings compared to traditional suppliers.

Premium 6061 Aluminum: Crafted from high-strength 6061 aluminum for exceptional durability and weight capacity.

Lightweight Advantage: Effortless transport and installation minimize labor costs and worker fatigue.

Corrosion-Resistant: Aluminum construction withstands harsh weather conditions and resists rust, ensuring long-lasting performance.

Modular Design: Flexible configuration options allow for customization to fit your specific project needs.

Slip-Resistant Surface: Textured surface minimizes the risk of slips and falls, prioritizing worker safety.

Quick Assembly: A simple and efficient assembly process minimizes downtime and allows for quick setup on-site.

Cost-Effective: Factory direct pricing combined with long-lasting aluminum construction reduces overall project costs.

Enhanced Worker Safety: Slip-resistant surface and guard rail compatibility prioritize worker well-being.

Improved Efficiency: Lightweight design and modular configuration streamline installation and customization.

Reduced Downtime: Quick assembly minimizes wasted time and allows for faster project completion.

Long-Term Investment: Durable aluminum construction ensures years of reliable use under demanding conditions.

Invest in a factory-direct, high-quality 6061 aluminum catwalk today and experience the difference!

Technical Parameters:

Attribute	Value
Size	Various Sizes Available
Standard	EN12810, AS/NZS 1576, ANSI/SSFI SC100-5/05, BS1139
Packing	Container
Application	Scaffolding System
Origin	China
Features	High Strength, Easy To Assemble, Versatile, Durable, Corrosion Resistant, Lightweight, Cost-effective, Flexible, Safe, Stable, Efficient, Environmentally Friendly, Interchangeable, Adjustable, Multi-functional
Material	Aluminum
Type	planks
OEM	Available
Usage	Construction, Maintenance, Repair
Keyword	Description
Construction safety	Designed to ensure safe and secure construction work
Lightweight plank	Made with lightweight aluminum for easy transportation and assembly
Safety design	Incorporates safety features to prevent accidents and injuries
Convenient transportation	Packed in containers for convenient transportation to different locations
High efficiency	Efficient and time-saving assembly process for increased productivity

Applications:

Aluminum planks- bythai

Product Description

The Aluminum planks, model BS204, is a high-performance scaffolding system designed and manufactured by bythai in China. It is certified by SGS and meets international standards such as EN12810, AS/NZS 1576, ANSI/SSFI SC100-5/05, and BS1139. This versatile system is suitable for various sizes and applications, making it the perfect choice for construction, maintenance, and repair projects.

Key Features

- Strong and durable aluminum material
 - Easy installation with minimal tools required
 - Efficient and safe for construction workers
 - Versatile for various sizes and applications
 - Compliant with international standards
 - Plank accessories for added convenience

bythai - providing high-quality scaffolding solutions since 2005

Customization:

Features:

Safety Design: Our Aluminum Ringlock System is designed to ensure construction safety and prevent accidents.

High Strength: Made of high-quality aluminum material, our system is strong and can withstand heavy loads.

Easy To Assemble: With a simple and efficient design, our system can be easily assembled and disassembled, saving time and labor costs.

Versatile: Our system can be used for various types of construction projects, making it a versatile choice for contractors.

Durable: The aluminum material used in our system is corrosion-resistant and can withstand harsh weather conditions, making it long-lasting and cost-effective.

Lightweight: Compared to traditional scaffolding systems, our aluminum ringlock system is lightweight, making it easier to transport and install.

Cost-effective: Our system is competitively priced and designed to help contractors save on construction costs.

Flexible: The interchangeable components of our system allow for flexibility in design and can adapt to different construction needs.

Safe: Our Aluminum Ringlock System is designed to meet safety standards and ensure the safety of workers.

Stable: The sturdy design of our system provides stability and support for workers and materials.

Efficient: With its easy assembly and versatile design, our system can improve construction efficiency and productivity.

Environmentally Friendly: Made of recyclable aluminum material, our system is environmentally friendly and sustainable.

Interchangeable: The components of our system can be easily interchanged and used for different purposes, providing flexibility and convenience for contractors.

Adjustable: Our system can be adjusted to fit different construction heights and requirements, providing versatility in design.

Multi-functional: Our Aluminum Ringlock System can be used for various types of construction projects, making it a multi-functional choice for contractors.

Packing and Shipping:

Packaging and Shipping

The Aluminum Ringlock System is packaged and shipped securely and efficiently to ensure the safe arrival of the product to its final destination.

Packaging:

The components of the Aluminum Ringlock System are carefully packed in strong and durable wooden crates or cartons.

Each crate or carton is labeled with the product name, quantity, and any necessary handling instructions.

Special packaging can be arranged upon request.
